

Company Profile

McKesson Canada at a Glance...

For over 100 years, McKesson Canada has been the logistics and distribution leader in the Canadian health care industry.

McKesson Canada :

- carries more than 35,000 products in 16 distribution centres,
- provides logistics and distribution to over 500 manufacturers, and
- delivers to 6,300 community pharmacies, and 1,350 hospitals, long-term care centres, clinics and institutions across Canada.

McKesson Canada has automated 2,500 retail pharmacies, and every year, over 100 million doses are dispensed through our hospital automation solutions

Manufacturers and health care providers count on us for a full range of services that contribute to the quality and safety of care for Canadian patients.

Ultimately our solutions empower manufacturers, pharmacies, hospitals, and various health care institutions – enabling them to get closer to the 12 million patients they serve every single day.

Helping you Connect with patients

Our Mission

To be the Canadian leader in health care supply management solutions by advancing the success of our partners.

About Us

McKesson Canada is the leading provider of logistics services, software applications and automation solutions within the Canadian health care marketplace. McKesson Canada offers a range of integrated solutions through its five business units: McKesson Pharmaceutical, McKesson Logistics Solutions, McKesson Automation, McKesson Health Solutions and McKesson Information Solutions.

McKesson Canada is a wholly owned subsidiary of McKesson Corporation of San Francisco, one of the world's leading health care supply management and information technology companies.

Business Units

McKesson Pharmaceutical

McKesson Pharmaceutical supplies and distributes pharmaceutical, over-the-counter (OTC) and consumer products to 8,000 community and institutional pharmacies coast to coast. McKesson Canada carries more than 35,000 products in 16 distribution centres. In order to better serve our customers across Canada's vast territory, McKesson Pharmaceutical is divided in three regional groups: Eastern, Ontario, and Western Marketplaces.

McKesson Specialty

Pharmaceutical Solutions offers a suite of services tailored to manufacturers of high value pharmaceuticals, including cold chain, information management, and controlled distribution programs.

McKesson Phase 4 offers strategic clinical and consulting services to the pharmaceutical, biotech and medical device industries. These services include late phase trials and registries, health economics, reimbursement management and payer relations and product development and marketing.

McKesson Automation

provides automation solutions to both community and hospital pharmacies through its two dedicated divisions:

McKesson APS offers a portfolio of automation solutions for the community pharmacy. These solutions are designed to work individually or in concert to dramatically increase the productivity of any pharmacy. McKesson APS partners with pharmacies to enhance speed, accuracy and safety through the use of an expandable line of products and innovative workflow management software.

McKesson Automation Solutions,

is a market leader of comprehensive and innovative pharmacy automation solutions that help hospitals re-engineer and improve their medication-use processes. Based on bar-code technology, these solutions are reducing medication errors and increasing levels of patient safety throughout all stages of the health care continuum.

McKesson Logistics Solutions

provides third-party logistics distribution and specialty services to manufacturers in the pharmaceutical, health care and cosmetics industries. McKesson Logistics Solutions employs state-of-the-art information technology systems to develop customized logistics solutions that meet each client's individual needs.

McKesson Information

Solutions is a leader in software, hardware, services and consulting to hospitals, physician offices and home health care. Its solutions are designed to improve patient safety and health care efficiency, reduce the cost and variability of care, and better manage revenue streams and resources.

McKesson Health Solutions

offers call-centre technology, disease, case and demand management solutions and nurse triage services. These solutions are designed to enhance quality, reduce risk, and continuously optimize the performance of health care programs.
