

MedDirect

Automated hardware and software system for communicating medication orders.

- ⊖ **Reduces** medication delivery **turn-around time**.
- ⊖ **Reduces transcription incidents** by electronically delivering clear, magnifiable scanned medication order images to the pharmacy.
- ⊖ Manages the queue of work items on the server, including **priority handling, alerts, alarms, time-based viewing and rerouting**.
- ⊖ Provides a comprehensive **medication order audit trail**.
- ⊖ Uses either **existing fax** or four-in-one commercial devices.
- ⊖ **Web-based** application provides remote access to order queue.
