

Did you know...

If you're preparing:

Up to 100
Rx/day

You will see an immediate benefit from our **AccuCount** tablet and capsule counter and integrated pharmacy scale

- Comes with a pre-loaded starter library of 4200 medications
- Save significant time on large counts e.g. Metformin

50 - 200
Rx/day

Our **Parata Mini** is a compact automation solution suited for your pharmacy

- Counts up to 30 pills per second
- Automates about 30% of total Rx volume in 49 cells
- Cells calibrated on-site

More than
180 Rx/day

Our **Parata Max** robotic dispensing technology will revolutionize your pharmacy dispensing

- Selects vial, counts, labels, and sorts by patient last name
- Counts up to 154 Rx / hour, 90% faster than manual filling
- Automate 60% of total Rx volume in 228 cells
- Cells calibrated on-site

If you supply prescriptions to nursing homes, long-term care facilities or prepare compliance packaging:

30 - 500+
beds or
patients

PACMED is the ideal fully automated system for all your dose packaging needs (Nursing Homes, Group Homes, Assisted Living and Community Compliance).

- Unit dose
- Multi-dose
- PRN
- Pre-pack

Pouch
verification

PACVision is a pouch verification tool that is based on an advanced system of molecule recognition.

- Verifies the contents of pouches, regardless of the type of paper or the size
- Total integration with PACMED provides advanced reporting capabilities

Monthly
MARs

Catalyst RMS is a web-based system that seamlessly integrates the information and care needs of health care facilities (HCFs), pharmacies and physicians.

Please call us at 1.888.606.6337 to discuss your automation needs.
